About PackinClub

Certified by CPCB

Trusted by 200+ Brands

Built for India

Who We Are

PackinClub is not just a packaging company — we are a plastic-free movement. We design compostable alternatives to single-use plastic, helping brands switch to packaging that looks good, works better, and breaks down without a trace.

From sweet shops to global exporters, we serve businesses that want to lead with purpose — not pollution.

Our Vision

To make compostable packaging the new normal — in every shop, every home, every corner of India. We envision a future where every packet protects not just products, but people and the planet too.

THE CHALLENGE

Why Single-Use Plastic Must End

1,000+ Years to Decompose

Conventional plastic persists in the environment for over a millennium.

Toxic Chemical Leaching

Harmful chemicals seep into soil and water systems over time.

Microplastic Contamination

Found in food, organs, and blood — a growing public health concern.

Regulatory Non-Compliance

India's ban on single-use plastic makes switching a legal necessity.

THE SOLUTION

Compostable Packaging by PackinClub

Natural Decomposition

Breaks down within 180 days, reducing landfill burden.

Plant-Based Materials

Made from renewable resources, promoting a circular economy.

Chemical-Free & Safe

No harmful chemicals, no microplastics — safe for food contact.

Nutrient-Rich Compost

Transforms into valuable compost after breakdown.

Decomposition Timeline: Day 1 → Day 50 → Day 135 → Day 180 (fully composted)

PRODUCT PORTFOLIO

Complete Range of Compostable Solutions

U-Cut Carry Bags	D-Cut Bags	Grocery Bags	Garbage Bags
Medical Waste Bags	Hot Liquid Pouches	Loop Handle Bags	Courier Bags / Mailers
Garment Bags	Bread Bags	Dog Poop Bags	Tiffin Sheets
Cling Film	Stretch Film	Shrink Film	PLA Coated Cups

All products are CPCB certified, customisable, and available with bio ink branding.

Compostable U-Cut Carry Bags

Simple. Sturdy. 100% Compostable.

KEY FEATURES

- Lightweight yet strong construction
- Printed with bio ink
- Customisable sizes & colours
- CPCB certified compostable

IDEAL FOR

Retailers, food shops, temples, kirana stores, and quick-service restaurants.

AVAILABLE IN

White, green, olive, or custom shades. Multiple size options available.

Compostable D-Cut Bags

Smart. Sleek. 100% Compostable.

KEY FEATURES

- Durable grip with reinforced D-cut handle
- Custom branding with bio ink
- Available in multiple sizes & colours
- Certified compostable and plastic-free

IDEAL FOR

Retail stores, exhibitions, sweet shops, events, and premium gifting.

AVAILABLE IN

White, green, olive, or custom shades with branding.

Compostable Grocery Bags

Made for daily use. Designed for the planet.

KEY FEATURES

- Strong and stretchable for heavy groceries
- Leak-resistant and food-safe
- Custom sizes and gusseted options
- Certified compostable and toxin-free

IDEAL FOR

Kirana stores, fruit vendors, supermarkets, and wholesale markets.

AVAILABLE IN

Milky white or custom translucent shades.

Compostable Garbage Bags

Clean disposal. Zero plastic.

KEY FEATURES

- Tear-resistant with strong bottom or star seal
- Odourless and toxin-free
- With or without core rolls
- CPCB certified compostable material

IDEAL FOR

Homes, hotels, restaurants, offices, municipalities, and corporate campuses.

AVAILABLE IN

Black, green, or custom shades. Roll & flat-pack formats.

Compostable Medical Waste Bags

Safe disposal. Certified protection.

KEY FEATURES

- Designed for biomedical and clinical waste
- Leak-proof with star or flat seal options
- Printed with required biohazard markings
- Certified compostable per CPCB guidelines

IDEAL FOR

Hospitals, clinics, diagnostic labs, healthcare units, and pharmaceutical facilities.

AVAILABLE IN

Red, yellow, blue, or black — per compliance norms.

Compostable Hot Liquid Pouch

Heat-safe. Plastic-free. Purposeful.

KEY FEATURES

- Withstands hot liquids without leaking
- Made from food-safe, plant-based materials
- Bottom and side seal for extra strength
- Customisable sizes with bio ink printing

IDEAL FOR

Temples, canteens, food service counters, and langar operations.

AVAILABLE IN

Milky transparent finish, with or without gusset.

Compostable Loop Handle Bags

Luxury in hand. Zero plastic inside.

KEY FEATURES

- Durable loop handles for effortless carry
- Ideal for apparel, footwear, and gifting
- Supports custom printing with bio ink
- Certified compostable & brand-safe

IDEAL FOR

Garment stores, footwear brands, quick-commerce, premium retail, sweet shops, and HORECA outlets.

AVAILABLE IN

White, green, or custom brand shades.

Compostable Courier Bags / Mailers

Secure delivery. Sustainable promise.

KEY FEATURES

- Self-adhesive flap with tamper-evident seal
- Tear-resistant and water-repellent
- Custom branding with bio ink
- Certified compostable and plastic-free

IDEAL FOR

E-commerce, electronics, fashion, D2C brands, and healthcare logistics.

AVAILABLE IN

White, green, pastel, black, or custom colours.

Compostable Garment Bags

Protects your product. Respects the planet.

KEY FEATURES

- Transparent, self-adhesive, and tamper-proof
- Smooth finish ideal for folding and stacking
- Printed with bio ink or left plain
- Certified compostable and retail-safe

IDEAL FOR

Shirts, sarees, kurtis, t-shirts, kidswear, and e-commerce apparel brands.

AVAILABLE IN

Milky transparent finish. Custom size options available.

Compostable Bread Bags / Pouches

Freshness sealed. Without plastic.

KEY FEATURES

- Breathable and moisture-balanced material
- Food-safe and odourless
- Heat-sealable or open-top options
- Certified compostable and bakery-safe

IDEAL FOR

Bakeries, cafés, artisanal bread brands, and food delivery kitchens.

AVAILABLE IN

Milky transparent or custom-printed options.

Compostable Dog Poop Bags

Responsible pet care. Zero plastic guilt.

KEY FEATURES

- Leak-proof and tear-resistant for safe cleanup
- Easy-tear perforation for daily use
- Odour-blocking and hygienic
- Certified compostable and toxin-free

IDEAL FOR

Pet owners, veterinary clinics, pet cafés, grooming centres, and residential societies.

AVAILABLE IN

Rolled formats with or without core.

Compostable Tiffin Sheets

Food-safe layering. Planet-safe disposal.

KEY FEATURES

- Grease-resistant and heat-tolerant
- Ideal for wrapping or layering inside tiffins
- Custom sizes and die-cut shapes available
- Certified compostable and food contact safe

IDEAL FOR

Tiffin services, catering units, mess kitchens, and meal delivery operations.

AVAILABLE IN

Plain or printed sheets — folded or roll formats.

Compostable Cling Film

Seals freshness. Leaves no plastic behind.

KEY FEATURES

- Stretches smoothly and clings tightly
- Microwave and food-safe
- Available with or without cutter box
- Certified compostable and toxin-free

IDEAL FOR

Kitchens, bakeries, cafés, hotels, cloud kitchens, and catering operations.

AVAILABLE IN

Transparent rolls — standard and custom widths.

Compostable Stretch Film

Strong wrap. Soft footprint.

KEY FEATURES

- High stretchability with secure hold
- Ideal for bundling and pallet wrapping
- Tear-resistant and cling-efficient
- Certified compostable and plastic-free

IDEAL FOR

Warehouses, logistics companies, e-commerce dispatch, and industrial packaging.

AVAILABLE IN

Transparent rolls for manual or machine use.

Compostable Shrink Film

Tight seal. Clean conscience.

KEY FEATURES

- Shrinks uniformly with heat application
- Ideal for product bundling and tamper protection
- Printable with brand graphics using bio ink
- Certified compostable and safe for packaging

IDEAL FOR

FMCG brands, cosmetics, electronics, and retail display packaging.

AVAILABLE IN

Transparent rolls for manual or automated shrink tunnels.

Bamboo Tissue

Soft on skin. Kind to the earth.

KEY FEATURES

- Made from 100% virgin bamboo pulp
- Naturally antibacterial and hypoallergenic
- Free from bleach, dyes, and fragrances
- Plastic-free, compostable outer wrap

IDEAL FOR

Hotels, cafés, offices, co-working spaces, and eco-conscious households.

AVAILABLE IN

Pocket packs, kitchen rolls, and box formats.

Compostable PLA Coated Cups

Hot or cold. Always compostable.

KEY FEATURES

- Lined with plant-based PLA, not plastic
- Leak-proof and heat-safe for all beverages
- Custom logo printing with food-safe ink
- Certified compostable and recyclable-friendly

IDEAL FOR

Cafés, food courts, events, beverage brands, and corporate offices.

AVAILABLE IN

100ml to 350ml sizes — single or double wall options.
